

President Richardt,

Based on the Park Board rejection of our latest proposal on October 22, 2019, it appears the option that the Park District had suggested for a land swap that can meet the library's needs is not achievable. The Library Board would like to meet with the Park District to further discuss your offer from November 6, 2017. The Library Board is also willing to invest in a mediator to be part of the discussion to help come to a solution.

We are available at your earliest convenience to further discuss the logistics for scheduling this meeting.

Thanks,
Jason Brandt, President
Helen Plum Library Board
